

# Rohit Chaudhari

Oracle Developer (PL/SQL, EBS R12) | APIs, Spring Boot, AWS

Oracle PL/SQL Developer with 4 years of experience in E-Business Suite (R12), specializing in SQL optimization, scalable PL/SQL packages, and performance tuning. Skilled at modernizing legacy code, building REST APIs via ORDS/SOA Gateway, and integrating enterprise systems (SAP, AWS). Currently expanding into Spring Boot and cloud technologies to deliver hybrid enterprise solutions

## WORK EXPERIENCE

### Title/Position

Tata Consultancy Services (TCS)

08/2021 - 06/2025

Pune

#### Achievements/Tasks

- Performance Optimization: Tuned critical SQL and refactored PL/SQL packages, cutting report runtimes by 30%+ and improving REST response times.
- Designed and optimized PL/SQL procedures, packages, and triggers for Oracle EBS R12 modules (AP, AR, OM, INV, WIP), ensuring scalability and maintainability across large datasets.
- Performed SQL query tuning and performance optimization using indexes, explain plans, and bulk operations (BULK COLLECT, FORALL) to reduce execution times and improve batch job throughput.
- Modernization: Refactored legacy AR payment file generation from a ~20K-line PL/SQL monolith to a raw-XML generator + XSLT templates per OU/region, massively shrinking regression scope and making regional/bank specific changes template-only.
- System Integration: Built an inbound interface to auto-create Sales Orders from SAP ASN feeds, enabling a seamless virtual order flow in EBS.
- APIs & Services: Authored robust RESTful PL/SQL packages via ORDS/SOA Gateway for internal/external systems (AWS, SAP) via XML/JSON output as per the requirement
- EBS Customization: Implemented advanced Forms Personalization (e.g., applying holds, launching concurrent programs) and extended Oracle Workflows for routing fixes and new steps
- Upgrade Readiness: Remediated custom code, reports, and workflows for Oracle DB upgrade 12c → 19c, preventing feature deprecations.
- Reporting & Automation: Delivered Oracle Reports (RDF), and UNIX host scripts for operational automation and generating reports using simple python scripting for basic data visualization

## EDUCATION

### BE - Computer Engineering

Marathwada Mitra Mandal's College of Engineering, Pune

07/2017 - 05/2021

Pune

## SKILLS

Oracle EBS R12

PL/SQL

ORDS

SOA Gateway

Oracle Modules : AP, AR, OM, INV, WIP, GL

SQL Tuning

Concurrent Manager

Forms Personalization

Oracle Workflow

Java 17

Spring Boot 3

REST

JPA,

Hibernate

Keycloak

OAuth2

JWT

PostgreSQL

Docker

Git

CI/CD

Vault

Github

SQL

REST APIs

## PERSONAL PROJECTS

### ECSU — Oracle EBS Component Search Utility

- A simple search utility to find details of Oracle EBS components like Concurrent Program, VS, forms etc. across multiple Oracle EBS instances from one central portal. [[Github](#)]
- Tech Stack: PL/SQL APIs exposed via ORDS; Spring Boot backend with DTOs; React/Tailwind frontend. Secured with Keycloak (JWT). Fully Dockerized (Postgres, Keycloak, Vault).

### OEDA — Oracle EBS Download/Upload Automation

- Artifact Download Utility for Oracle EBS Application This Application enables download of EBS code components like LDTs, WFX, template etc from multiple EBS instances via a single interface. [[Github](#)]
- Tech Stack: PLSQL, ORDS, Java Spring boot, React, tailwind CSS, Vault (Secret management), Docker

## CERTIFICATIONS

Oracle Cloud Infrastructure 2025 AI Foundations Associate (1Z0-1122-25) - Oracle
